RELEVANT SKILLS

Programming Skills
- Front End Web Development
  - HTML
  - CSS3
  - Bootstrap
  - Figma
  - Git Basics
- Back End Development
  - JavaScript
  - Node.jS
  - Express.jS
  - Postman
  - MongoDB
  - REST Architecture
- Full Stack Development
  - DOM Manipulation
  - React.jS

PROJECT EXPERIENCE

- Front End Capstone:
  - Designed and developed a responsive website using HTML5, CSS3, Bootstrap, and Git for version control, hosted in GitHub
- Back End Capstone:
  - Developed an E-Commerce API using Express.js, Postman, and MongoDB with these features:
    - User Resources:
      - Registration and OTP authentication
      - Admin management (default admin, set user as admin)
      - User details retrieval and password update
    - Product Resources:
      - Create, update, archive, and activate products (Admin only)
      - Retrieve all products, active products, and individual products
      - Search functionalities
    - Cart Resources:
      - Add to cart, update quantities, remove items, and clear cart
    - Order Resources:
      - Admin order retrieval
      - User order retrieval and checkout
- Full-stack Capstone:
  - Develop a full stack **E-Commerce** website using ReactJS and ExpressJS, incorporating all features from our backend project.
  - Developed a full stack **Financial Tracker** app for our quail egg business using ReactJS and ExpressJS. It includes secure login, expense and income tracking, budgeting, financial reports, and a responsive dashboard for both desktop and mobile.
